

Challenge

Personal Portfolio Website in Angular

1. **Navigation Bar:** Create a simple navigation bar with links to different sections of your portfolio (e.g., About Me, Projects, Contact, etc.).
2. **Navigation Functionality:** Implement smooth navigation so that clicking on each tab in the navigation bar displays the corresponding section.
3. **Design and Style:** Design the website's layout and style it aesthetically. Consider using modern design principles, such as clean layouts, visually appealing color schemes.
4. **Content Sections:** Create different sections for your portfolio, such as an introduction (About Me), a showcase of your projects, and a contact form.
5. **Combine Your Skills:** Apply your knowledge of Angular,HTML,CSS and JavaScript.
